

We offer a variety of CASES for ink pad projects.

- These photos represent our standard case colors. Our molder is capable of matching Pantone numbers, should you be interested in alternative case colors.
- We offer a variety of foam and felt materials for dye-based and pigment-based ink pad projects.
- Sticker-style lid labels are recommended for all our pad projects but we are able to accommodate pad printed lids depending on the artwork style, as determined by our production team.
- Measurements for each case is listed on the next page.

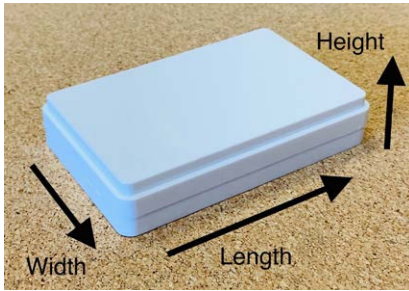

*NOTE: How we measure our ink pads is illustrated in the Rectangle Case photo (on the next page).*
